Stanley & Patty Rinehart Chapter B Directors

Well June was a busy month, we just had our annual picnic wrap up and speaking of the picnic I want to thank all that helped make this another success, there was more than enough great food to eat and as always I would match our Chapter B cooks up against anyone, I also want to thank everyone that helped set it up and clean up afterwards and to the guy's grilling the burgers, Scott and Wally and a special shout out to Wally for all the gear that he brought to make this successful. We also had our annual night at the Ballgame as we watched our Smokies win another one, great time was had hanging out at the ball park and what a great fireworks display that was put on after the game, and we also had the ride to Helen GA. Which I did not get to attend but I am sure they had a blast. Now July has a ride set up on the 13th to Amis Mill but there are a lot more open dates in July as there are the rest of this year so look it over and get with Wally on some rides you would like to do. I also have sent out the new Flyer for Spring Fling 2025, it has the schedule and theme so it's never too early to be thinking of the skits we will want to do. We also have the Fund Raiser going on, there are a few tickets left to hand out and Tom will be working on making some more and we need everyone's support on this to make this successful. As always I look forward to seeing everyone Tuesday night.

Don't Ride Dry – Run Hydrated

The most 'un-fun' times on my motorcycle have been times when I've ridden in hot weather. Even rolling down the road at 50 plus MPH just seems to blow hot air on you and only slightly eases your discomfort. However, the greatest danger of riding in hot weather is not discomfort but the potential of dehydration.

According to most research, it is estimated that 75% of Americans are in a constant dehydrated state. One misconception out there is that if you don't feel thirsty then you don't need water. WRONG! Your level of thirst is not always a good indicator of your hydration level. There are many health issues that come from dehydration but for someone operating a motorcycle the potential results of dehydration can be devastating.

Here are some reasons why you, as the operator of a motorcycle and even your passenger, should stay hydrated:

1. **Maintaining Physical Performance**

Motorcycling requires physical effort, particularly when riding for long distances or in challenging conditions. Proper hydration helps maintain muscle function and stamina, reducing the risk of fatigue and muscle cramps.

2. **Cognitive Function**

Dehydration can impair cognitive functions such as concentration, reaction time, and decision-making. For motorcyclists, these impairments can be dangerous as they increase the risk of accidents.

3. **Temperature Regulation**

Riding a motorcycle exposes the rider to varying weather conditions. Hydration helps regulate body temperature, which is particularly important in hot weather where the risk of heat exhaustion and heatstroke is higher.

4. **Preventing Fatigue**

Even mild dehydration can cause fatigue. Staying hydrated ensures that motorcyclists

When riding consider these tips for good hydration:

Drink Regularly: Don't wait until you're thirsty to drink water. Sip water regularly, especially during long rides. If you don't have one, get a cup holder for your bike. I have one of the Butler mugs and it does a great job of keeping water cool while holding a lot of it!

Avoid Excessive Caffeine and Alcohol: These can contribute to dehydration. It is best to opt for water or sports drinks when doing longer rides and don't drink too much the night before.

Monitor Urine Color: Light-colored urine typically indicates proper hydration. If your urine begins to look darker you probably need more water going in.

Plan Ahead: In hot weather plan to do your riding in the mornings and plan frequent stops for hydration.

As we ride through the summer let's make sure we are not running dry...keep the H2O flowing and avoid the pitfalls of poor hydration. Here's to a wet whistle and a safe ride!

Scott

Technical Coordinator: Chris Harden

This month I would like to discuss a problem almost every motorcycle has and you don't even realize it that is too much slack in the throttle cable. A properly adjusted throttle cable should only have about 1/8 inch of play before you have throttle resistance this allows for the pull and push cable to work freely together, if you get it to tight the two cabled will fight each other and cause binding or brake cables internally too loose and too much slack will make the throttle response slower.

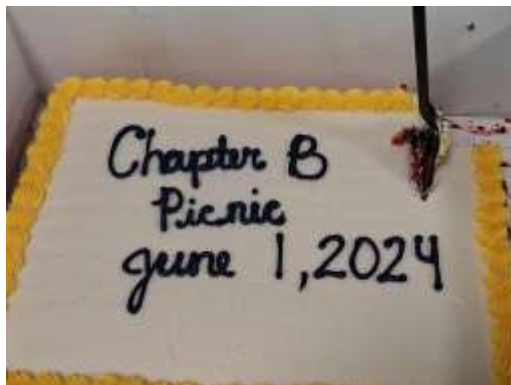

The adjustment is very simple on the cable next to the throttle grip is a cable adjuster and the way it works is it shortens or lengthens the outer housing adding slack or taking slack away according to what you need the adjustment takes just over a minute to do and can make all the difference I the world on your next ride.

Chris Harden

Chapter B Picnic

Helen Georgia Plop Ride

On Friday morning, June 21st 11 of Chapter B's finest (well, we like to think so) met up at the Weigel's just West of Interstate 75 in Lenoir City and began our journey to Helen, GA. The gaggle of 'Wally Followers' consisted of Scott and Amy Seal, Kyle and Bobbie Beeler, Peanut Davis and Kathy, Ed and Laura Blount and Hedie and myself (Scott). We were four trikes and two bikes with Laura following in her nice air-conditioned car! Scott Seal rode as the tail gunner and to avoid the CB confusion of there being two Scotts on the ride Wally dubbed Scott Seal as 'Bro' and me as 'Preacher' (although it took him awhile to get used to these new names he gave us which was humorous in its own right). We had a beautiful ride down to Helen with Wally taking us down some of the most beautiful tree-lined roads I've ever ridden on. That man knows all the pretty highways! We ate lunch at the Burra Burra restaurant on the river in McCaysville, GA where Hedie bought the biggest piece of Carrot Cake we had ever seen and it was good!! It lasted us two days!

In a slightly comatose state we all saddled back up for the rest of the ride to Helen. We rode through Helen at about 3 PM and made our way another 20 minutes down the road to our hotel in Cornelia, GA where we took some cold showers and then ate at a great Mexican restaurant named Casa Bariachi (which means 'Large Margarita' in Spanish...NOT). It was just a 5-minute walk from the hotel and we had great food including some great salsa and chips! We later retired to Wally's suite to play 5 Crowns (it was brutal) and watched the Vols Men's Baseball team lose to Texas A&M (not fun).

The next day we were up early as we had a full day ahead of us. After a good breakfast at the hotel we went to Helen and

walked around the shops and saw the sites. We ate lunch at The Troll restaurant by the river and then got back on our trusty steeds and went to the Brasstown Bald overlook and then to Anna Ruby Falls. The views at both places were exceptional and the ½ mile hike (each way) from the trail head to the Anna Ruby Falls and back justified our ice cream when we got back down!

That night some of the folks grabbed some pizza at a local pizza place while others of us took more cold showers to cool off. We all huddled back to Wally's suite for some more games. Hedie and I taught a few of the folks a new card game called Swoosh. After a few hands we went back a game of 5 Crowns and Peanut, Kyle, Scott and Laura peeled off to play marbles (some things were said...just saying).

The next day was Sunday and the ride home. We decided to skip breakfast at the hotel and rather ride to The Dillard House (ironically in Dillard Georgia) where we had a family style breakfast at one big table. Good vittles y'all!!

We got back on the rides for the rest of the ride home via Cherokee, NC

and up through the mountains on Hwy 441. The temperature changed a full 20 degrees from the bottom to the top of the pass!

After a brief restroom break at the Sugarland Visitor Center outside of Gatlinburg everyone went their separate ways.

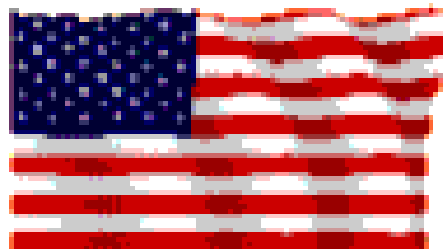

The trip was wonderful and great memories made (some which cannot be put in writing but involved the incorrect pronunciation of a famous Canadian dish of gravy and cheese curds on French fries! That's a story is for another time).

Special thanks to Wally for all the hard work in planning and leading this ride. He lived up to his reputation as a great ride planner and if you want to experience your own Wally excursion ask him about Gulf Shores in the Fall.

Send us your For Sale items or Wanted to Buy items. Pictures and a full description with price always helps.

Chapter B over the Years

Helen trip 2014

Smokey's Ballgame 2014

Chapter B Veterans 2014

Congratulations to the University of Tennessee Men's Baseball Team for winning the 2024 College World Series Championship game. Make us all proud of OUR Tennessee VOL's!

Just a few memories from the past, every Chapter B event you can work into your busy schedule goes a long way to creating making memories that will last a lifetime. How many times do we take pictures during one of our rides only to lose it in the hundreds of other pictures. While the memory of your ride is fresh in your mind, would it be special if you just jot down a description and the date and send it along to your newsletter editor. Hopefully sometime down the road you will be able to look back and refresh your memory of some good times with your Goldwing family, just a short 10 Yrs ago!

Deniese James
richanddejames@yahoo.com

See Denise for shirts or patches

Visit our web site and follow the links to join this new and exciting association now that our GWRRA association closed down its operations.

Forward your membership numbers to Stanley after you receive them from National as we build our member roster moving forward with our membership drawing at each chapter meeting.

Eagle Wings Motorcycle Association Team Structure

This is intended only as an example as to what we have envisioned how this new Association would look like.

CEO/ President

International Team:

Vice President of Operations, Vice President of Safety/Ride Coordinator, Vice President of Finance and Vice President of Special Operations

Regional Team:

Regional Director, Regional Safety/Ride Coordinator, Regional Treasurer

District Team:

District Director, District Safety/Ride Coordinator, District Treasurer

Chapter Team:

Chapter Director, Chapter Safety/Ride Coordinator, Chapter Treasurer

The Directors would be appointed by the Director above them and the Director would appoint their own Team with approval of the Team above them, like the Chapter SRC would be appointed by the CD with approval of the DSRC and so on.
