From Your Senior Chapter B Directors
Tom & Merrilee Peck

Here we are and February has come and gone, even though it was a leap year it went fast. The weather has not been bad, not quite Goldwing weather but you know it's right around the corner. We have our annual picnic coming up soon and picnic committee is busy putting things together to make it another fun day for all our members. There were many discussions about a fund raiser and we talked about several ideas. Normally there are funds available from our monthly 50/50 drawing but sometimes other expenses come up. The lifestyle cards always added a couple hundred profit to the treasury but Santa decided our members needed a little Christmas gift so we didn't realize any funds in our Treasury from that idea. The idea of a raffle was discussed and everyone decided that might be a good way to generate some chapter funds. We always like to make a donation to St. Jude and the raffle might enable us to donate to St. Jude and also add a little extra to cover operating expenses. We figured if all our members would sell a book of ten tickets we could cover the cost of purchasing the gun and have some left over. We will have tickets available at our meeting so make sure you sign out at least one book. The raffle will be at our September meeting and the winner need not be present to win. Nice hand gun 38 special Satin Stainless steel. Scott being an authorized gun dealer will be able to complete the necessary registration and paperwork to make everything legal. If you get a chance make sure to thank Scott for all his help making this Raffle possible. Tech day is coming up soon, we are all looking forward to this special day to hang out, work on the bikes, kick some tires, tell some lies and enjoy some good food. I would like to ask some of our more mechanical talented members to come out and share some of their vast knowledge with our fellow members, always good to talk about maintaining our Goldwings.

Tom

Assistant Chapter Directors

Well we have two months under our belt and it's already starting to look like another great year for Chapter B. We just had the officers meeting in Lebanon TN followed by the winter event, what a fun day that was. We have some real nice stuff coming up this year starting with tech day coming up in a few weeks then we dive right into our riding schedule. We also have a couple of fund raisers to concentrate on. We have a raffle for a nice pistol that we can thank Scott for picking up for us and we need everyone to see Tom at the meeting and pick up some tickets to sell. We also have the 2nd annual Chapter B picnic that is set for May 30th and we need some volunteers for the planning meeting so if you are willing to help please see Wally at our Chapter meeting. And speaking of Wally, it is great news that he is accepting the Ride Coordinator position again. Unfortunately Patty and I won't be able to make this month's meeting as we are heading out of town but look forward to seeing everyone at our next gathering.

Stanley

Happy Trails

What's the biggest risk motorcyclists face in traffic? Well, in my opinion left turning drivers are probably near the top of the list. Turning left in traffic requires concentration and attention that some drivers don't have, and once these drivers make their fatal mistake, they've pretty much created a no-win, no escape situation for a motorcyclist. I'll tell you how to improve your odds in high-risk, left-turning-car situations. It's called shadowing. Approaching an intersection with cars waiting to turn, ride in the visual "shadow" of a larger vehicle, preferably a much larger vehicle while you are in the lane next to theirs. Line up your front tire with the rear bumper of the larger vehicle (truck). While this is not normally a real safe place to be, using the large vehicle's roadway presence will shield you from a possible left turning 3 ton SUV.

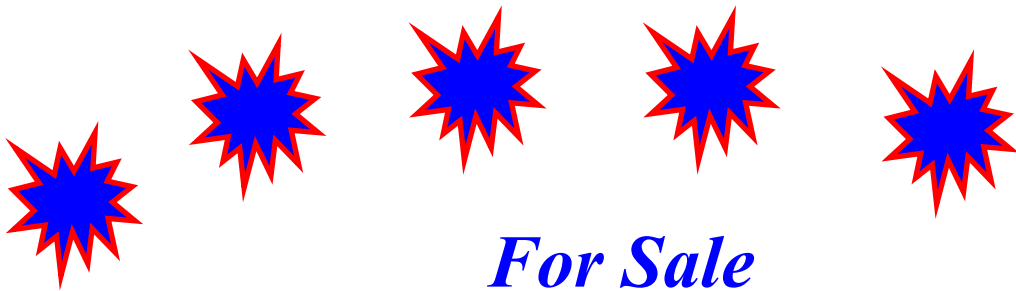

Yes, I'm telling you to purposely ride in the truck's No-Zone momentarily to use the truck as a "safety" barrier. Be cautious and ready to brake should your blocker decide to change lanes. Once past the potential left-turning hazard, you need to immediately back off, or speed up and find another good riding position. If you're going to be dealing with the same situation repeatedly in an urban setting it might be wise to just back off and re-use that large vehicle again at another intersection.

Obviously this safety trick will probably not work for group rides, however sometimes there can be safety in numbers if every rider is alert.

Until next time, ride safer

Jerry

For Sale

2 New, never worn women's medium & Large Tour master jackets only \$100 ea.

Tech Day 2020

March 28th 2020

Lots of members have been asking when are we having our Tech Day. Looking at the calendar it was decided March 28th would work best, its early enough in the riding season yet we should be in a bit milder weather when we could get the motorcycles out from their long sleepy spell during the colder months.

We will be open for business about 10 am. For those doing work on their bike the garage will be open. Bring you own oil and filter or other item needing attention. We will try to get those not doing things to their bike to do some brain storming to see if there is any interest in putting on a SKIT or other entertainment during our Spring Fling in Pigeon Forge APRIL 30, May 1st & 2nd. Put your thinking hats on and lets put Chapter B on the map.

We will be here the entire day and plan to do some hot dogs when everyone gets hungry. I'm sure some will bring some of their favorite desserts, coffee and soft drinks will be provided.

Hopefully it will ne a nice day but if the weather doesn't cooperate we can try again April 4th.

Spring Fling 2020

38th Annual Tennessee District
“Spring Fling” April 30 May
1&2, 2020 Pigeon Forge, TN
Hillbilly Hoe Down

HOST HOTEL

We will have tickets available at our monthly gathering so make sure to pick up at least 1 or 2 books of 10 tickets. Tickets cost \$5 each or 5 for \$ \$20 tickets. We are counting on everyone to make this fund raising effort a huge success. See Tom, Scott or Stanley to sign out your tickets

**HAPPY
ST. PATRICK'S
DAY!**

Founders of the Pediatric Brain Tumor Foundation,
Mike & Dianne Traynor Est: 1991

Chapter Bee, has been a gracious and giving group of people. We had a great run with Ride for Kids, taking over from Chapter M. I would like to thank the Chapter for helping the PBTF for 12 years I think. Since we have closed that book (Ride for Kids), I have found a sister organization, called Starry Nights. They are more of a walk and run type of thing, which is a PBTF organization. The young lady that is in charge of it is Sarah Hamilton. She has a son Brodie, who is a brain tumor survivor. The Hamilton's are very involved in PBTF/ETCH fundraising. I am helping with any events that I can. So we missed the Smokies chuck a puck night, thru miscommunication but will get them on the schedule for 2021. Our friend Jerry Ciesla, who has been working with Smokies for the last few years, has got a benefit for Starry Night (Knoxville) and East TN Children's Hospital "base a ball" night on July 18th 2020. There will be a tennis ball throw for prizes supplied by the Smokies at the end of the game before the fireworks. We will sell the tennis balls and bag them like we did 2 years ago, we will get help from the Starry Night people, so that they can learn what to do. The funds from the tennis ball throw, 100% will go to the Charity and there we be a \$5 donation for each ticket purchased on the Smokies Website using the "PBTF2020". I believe the website will not be up till March 15th to order your tickets, and remember stay on the 3rd base side so the sun will not be in your eyes most of the game. We will have a flyer up soon so pass around and with Sarah on board we will have her support group to order a bunch more tickets, too. The Starry Night Knoxville event is scheduled for November 15, 2020 at Ijams Nature Center from 3pm to 8pm. They have a 1K fun run/walk and other races, too.

Again, thanks to all the volunteer help and support over the years.

Wally

Cabin in the Smokies

It's almost time for Chapter B's get away.

Symbols and images associated with Ireland and St Patrick's Day

The national flag of Ireland, also known as the Irish tricolor, appears throughout St Patrick's Day parades, events and celebrations. The green stripe stands for Irish Catholics, while the orange stripe represents Irish Protestants. The central white stripe also represents the hope for peace between the two groups.

The patron saint of Ireland is traditionally linked to the red Saltire of St Patrick, which was used to form the the flag of the United Kingdom.

St Patrick is also associated with blue, after the creation of the Order of St Patrick in the 1780s made it the official color. "St Patrick's Blue" can be found on Ireland's Presidential Standard, and in the plume of bearskins worn by the Irish Guards.

The legend of the Leprechaun has also become a modern-day symbol of Ireland. Known for their mischievous behavior and leaving pots of gold at the end of rainbows, today, the mythical creatures feature heavily as a tourist symbol and some people choose to wear Leprechaun costumes and hats to St Patrick's Day parades. Dublin even has its very own Leprechaun Museum.

Antifreeze - Wikipedia

<https://en.wikipedia.org/wiki/Antifreeze>

An antifreeze is an additive which lowers the freezing point of a water-based liquid. An antifreeze mixture is used to achieve freezing-point depression for cold environments. Common antifreezes increase the boiling point of the liquid, allowing higher coolant temperature.

Overview

Principles and history

Use and occurrence

Primary agents

Measuring the freeze point

Corrosion inhibitors

Additives

Because [water](#) has good properties as a [coolant](#), water plus antifreeze is used in [internal combustion engines](#) and other heat transfer applications, such as [HVAC chillers](#) and [solar water heaters](#). Because [water](#) has good properties as a [coolant](#), water plus antifreeze is used in [internal combustion engines](#) and other heat transfer applications, such as [HVAC chillers](#) and [solar water heaters](#). The purpose of antifreeze is to prevent a rigid enclosure from bursting due to expansion when [water](#) freezes.

Commercially, both the additive (pure concentrate) and the mixture (diluted solution) are called antifreeze, depending on the context. Careful selection of an antifreeze can enable a wide temperature range in which the mixture remains in the [liquid phase](#), which is critical to efficient [heat transfer](#) and the proper functioning of [heat exchangers](#).

[Wikipedia](#) · Text under [CC-BY-SA license](#)

Overheating

I have heard people complain about overheating climbing steep hills and after reading several forums on this problem and experiencing it first hand I come up with a solution. First of all there are 4 major problems that create this problem 1 recovery tank cracking 2 a kinked or collapsed recovery tank hose 3 a bad thermostat and finally 4 a bad radiator cap . the industry as a whole recommends changing antifreeze every 24 months.

Coolant additives

There are several name brand coolant additive on the market that help reduce heat of coolant as much as 20% I personally have used several brands of this product and works well to reduce engine heat with no adverse affects but you must follow directions

Officers meeting and Winter event

This year's officer meeting had a little twist to it as they added a winter event and invited anyone from different chapters that wanted to attend. This is my second officers meeting and personally I have enjoyed them and to have the bonus of a winter event was icing on the cake. Patty and I spent two nights in Lebanon so that we could spend the time for the event then make the drive into Nashville to see our son and new Grandbaby before coming home. We had a nice turn

out of Chapter B folks, 12 in total. Our motel was just a short drive to the event and the weather was a lot better than last years rain. The meeting started out and ran for about three hours before breaking for lunch then the winter event. They set up different games to get tickets to place in bags and had a few Chapter challenge games, and I have to say there was a lot of laughing going on. We had some Chapter B folks really step up but by the end of the day we came in 3rd. One of the games was using a straw and you had to blow a golf ball back and forth between bottles to get from one end of the table to the other, it takes two team members and Chris and Julie really stepped up and did a heck of a job, another challenge was passing an orange around between

5 team members and you wasn't able to use your hands, I have to say I really sucked at this and it didn't help with all the giggling that Julie was doing, another challenge was a scavenger hunt. During the ticket draw we had several people win stuff including Patty winning several things. All in all it was a lot of fun day and I hope they keep the same format for next year's meeting.

Stanley and Patty
