Your Senior Chapter B Directors
Tom & Merrilee Peck

Hello everyone, well once again we will be out of town and unable to do the newsletter but guess what? Stanley has things in good hands and will do a great job as usual. We had a chance to visit some kids and grand kids and great grand kids so off to Utah we go. Should be back in time for the meeting so we will see you there on the 5th next month at our regularly scheduled gathering. The summer has flown by, and we are in the fall season we all love here in Tennessee. With all the colors of the changing leaves and the cooler weather for our rides it's hard to beat October in the Knoxville and east Tennessee area. We already have had several rides and by the time you get this newsletter you're planning, or you just got back from the Pumpkin Festival. This annual event is always fun, and our ride captains always seem to plan a fantastic ride over and back from the festival. This year I'm sure will be another fun time. Seems like we have had a few new riders join our group who already have taken a Cumberland Gap ride with Chris & Stanley, welcome Ed to the group! We will be talking about a District ride coming up soon that will have several chapters plan a ride and meet at a specific location for lunch together, should have more info at Chapter meeting to discuss. For those who have never experienced group riding, you are in store for a real treat. Come out and ride with the folks in Chapter B and you will be amazed how much fun you will have. Our members have come together over the years and now seem to be a seasoned riding Team. It is quite a sight to see a precision group of Goldwings headed down the highway, all spaced out uniformly, and courteously allowing traffic in and out of the group. I'd like to congratulate all our membership for making our group riding so much fun. Its all your fault! The more we ride together the better it gets. Look forward to seeing everyone at Shoney's at Chapter Meeting, ride safe.

Assistant Chapter Directors

Stanley & Patty Rinehart

Happy Halloween, fall is finally here and like so many of you it is my favorite time of the year. The days cool off, grass slows down and the two highlights for me are the leaves changing colors and college football. By the time this newsletter comes out we will have added some really nice rides and what sounded like one really nice trip into the books. This newsletter is a little longer than normal but we had some great articles, tech tips, safe riding tips and a lot of cool pictures. We have been fortunate to have had some really nice rides this year and hopefully we can squeeze in a couple more before it's time to put the bike up for winter. One thing coming up that we are really looking forward too is game night on No. 13th at Wally's house, should make for a great afternoon of games, food and good friends. The joys of belonging to GWRRA and being in an active Chapter brings a lot of rewards, meeting and socializing with some really great folks, being part of an extended family that will always be there to help and the joy of riding with people that love to ride as much as you do. As always we look forward to seeing everyone Tuesday night,

Stanley

Happy Trails

A few tips for riding in the rain Like most riders you probably avoid riding in the rain, but we all know that showers and downpours can pop up unexpectedly. And as we all know a trip which is at least 3 to 5 days (or longer) will undoubtedly produce some rain.

1. Stay comfortable. Good fitting waterproof gear that works will make the rain experience more comfortable. Try to get gear that packs small and is easy to put on and take off.
2. Keep a clear shield. Without wipers we usually must turn our heads left and right at speed to get our visor to clear or get riding gloves that have a built-in squeegee.
3. Be seen. Bright colors can help being seen when the skies turn gloomy and especially when the rain starts. Be sure that all your lights are working and signal early before reducing speed, so you won't get rear ended. Keep an eye out for low spots in the road where water can puddle or hide debris.
4. Ride smart. Slowing down to minimize the risk of hydroplaning is a good idea. This applies not only to 2 wheelers but more importantly to trikes which are more prone to hydroplaning. Also, a slower speed will allow you to have more time and space to react to hazards. When rain first starts it reacts with road grime and oil droppings and that is when the pavement is very slippery reducing the traction of all vehicles. But as you may recall, your bike's tires only put down a footprint that is only about the size of your palm. Always be careful with road paint, railroad tracks, tar snakes, and metal construction plates that are just waiting to cause you trouble.
5. Be smooth. There can be a surprising amount of grip on wet roads, but it is always important to be smooth and recognize that traction is indeed reduced compared to dry conditions. Those of you on 2 wheels should reduce lean angle in the curves when the road is wet. And something that applies to ALL motorcycles is DO NOT use your cruise control while riding in the rain. The result could be deadly.

Until next time, ride safer Jerry

Fall ride to Helen

It was a cool day toward the end of September as we mounted up to head out on the Goldwing to meet up with our Chapter B group. The plan was to depart the Weigel's in the Lenoir City

area. As we pulled in to gas up and get ready to go, I noticed we were the last to show up of the

13 bikes and 24 Chapter B folks.

It was

in the 40's as we pulled out of the driveway, it was a beautiful fall day as we rode through the morning fog south toward I-75. Merrilee did say she wished she would have put on her

gerbing gear. As the morning progressed it warmed up quick. Wally had laid out a great route and managed plenty of stops. What a difference one year makes, remember leaving in the pouring down rain last year about the same time of the year. I was really impressed how everyone seemed to group up and stay together heading down the road, quite a site. As we wound through the countryside on US129 and on into Georgia where we made a stop at the tallest place in the entire state of Georgia. As we made the climb up the mountain where we had to park the bikes and load onto a bus we made the final mile or so to Brasstown Bald Mountain where we had to walk up the tower for the most amazing view of the surrounding

Dinner out at the Casa Bariachi grill for dinner and massive margaritas. Next day was open but many made their way back over to Helen for a morning of shopping and site seeing then lunch before heading back to the hotel. Pizza for dinner then an evening of fun and games, out came the quarters and the marble game. Even though the TV in the conference room didn't work we managed to watch the football game on a laptop or cell phone over the hotel Wi-Fi. Finally, another wonderful day as we

assembled to get ready to head home. Our final day of our weekend trip took us back into the North Georgia mountains and back into the Smokies and

Cherokee, Pigeon Forge and North to Laffollette for us as several dropped of towards their home on the way. Thanks, Wally, for putting this ride together once again and thanks for all Chapter B members who proved how much it is group riding with friends.

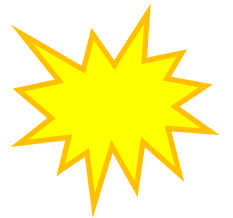

our fun

Technical Coordinator: Chris Harden

With Fall upon us its time to look over our bikes again. We have been too busy riding to check things. Throughout the last few months it has been hot and now with the return of cooler weather you need to be aware to check over things like coolant levels, tire pressures , lighting, suspensions, steering and things like oil levels as things can change with cooler weather also it's a great time to look at tire ware so do yourself a favor and look over your motorcycle as prevention can save you from having a breakdown.

Couple Of The Month

Steve and Diane Skeens

This sweet couple have been married for 31 long years. They met at Bethel Baptist Church in 1989 where Diane is a 3rd generation member. At that time Steve's wife of five years had passed away and Diane was divorced for a few years and the rest is history. They have two grown sons and three grandsons.

Steve was born in Valdosta Georgia, but he spent most of his life in

Clinton Tennessee. In March of 1982 he started driving long haul. Soon after he had his own truck with Crate Carrier for 11 years. He retired in March 2021 after 39 years of driving. Steve hauled everything from sheets of glass to fuel.

He loves Ford vehicles, bass boat fishing and riding his 2014 Honda Gold Wing. Steve also loves spending time with his dad and other family members.

Diane was born in Knoxville, Tennessee but lived in Clinton Tennessee most of her life. She worked at AEC now NRC in Bethesda Mary-

lyn for one year. She worked in Oak Ridge, TVA in Norris, and Knoxville. Before Covid hit Diane spent most of her time visiting the shut-ins and volunteering with activities at nursing homes and the surrounding areas. She loves going to watch her youngest son play football and baseball.

They enjoyed traveling out West on their 1998 Honda some years ago. They now own a 2014 Honda Gold Wing and have made several trips out West. This year they traveled with Tom and Merrilee, Dave and Betty to Springfield Missouri for the Wing Ding. Diane's ticket number was called, and she won the grand prize. It was a Spanking Brand new 2021 Honda Gold Wing! Diane all we can say is that you Rock Girl and Congratulations! Then they traveled on to Glacier National Park and rode 5,422 miles over 21 days!

They are so happy to be a part of the Chapter B family and appreciates all the friendships that have been extended to them since they have joined!

#1 The Engraver !!! #1

- Engraved Name Tags, Bike Plates, License Frames, Maps, Name in Lights and much more – Because we carry such a wide array of logos and pins, we can custom engrave name tags and other engraved items for GWRRA, all Armed Forces and other groups such as Masons, Shriners, Patriot Guard Riders, Blue Knights, Red Knights, Buffalo Soldiers MC
- License Plate Frames for Motorcycles, Trailers and Automobiles- Custom engraving to support your group, sports team or just to personalize your plate.
- *Chrome Knob Keys and Spare Keys We only use GL1800 or GL1500 chrome radio knobs to make our knob keys. We also make a flat spare key that easily hides away in your wallet or on the bike. We are the "Home of the Original" chrome knob key for the gas tank and pouch. Also available in smoke chrome.
- Medallions- Couple and Individual of the Year medallions. These medallions also make great awards for student, athlete and employee awards! Couple of the Year name tags are buy one, get one free. We now carry the GWRRA COY/IOY pins and hangar bars.
- Military, and Fraternal Organization Pins as well as GL 1800/GL1500 Bike and Trike Pins
- **Pin-Locs** – Locks pins or tags with military posts onto vests etc. We now also carry the "no-poke you" type in silver and gold ***Never lose a pin
- Plaques, Trophies and Signs - Custom trophies, plaques and signs (Up to 8"x10"). These plaques can be used to honor your Couple or Individual of the Year as well as honor the service of outgoing directors of your chapter, district or region.

CHECK OUT AND LIKE OUR NEW FACEBOOK PAGE. @thEngraver I will be posting specials and examples of our work on this page.

In addition to adding our vast array of pins on our website, you can also now see us on eBay where our pins are and will be added to site over the next few weeks.

PLEASE NOTE: If you do not see what you need listed on our website, please email us or call. If you are interested in carrying any of our items at the Chapter, District or Region goodie stores or rallies, please call us for special pricing.

Joanne 561 239 2307 Website: www.thEngraver.com Email: ThEngraver@aol.com

We are Lifetime GWRRA members and have been honored by GWRRA for more than 25 years of support and loyalty to GWRRA Wing Ding event participation! See our ad in GWRRA Wing World magazine.

Items For Sale

I have a set of centramatic balancers for a 2010 two wheeler asking \$225. Brand new. See Scott Seal

OUR VIKING JOURNEY

We departed Knoxville on August 28, 2021, flying to Philadelphia and then to Amsterdam. We were met at the airport by a Viking representative and shuttled to the Renaissance Blu Hotel where we were joined by Tom's sister and her husband who flew in from Ohio. Having decided to spend a couple of days in Amsterdam to sightsee, we took a canal cruise and walked around the city dodging bicycles all the while.

The streets were cobblestone, quite old. We noticed many Argentine restaurants and grills, lots of coffee shops, bakeries, etc. Most baked items contained some sort of marijuana, so we passed. It was obvious that it was being smoked openly. Sidewalks were filled with wall-to-wall people walking, but where were they going in such a hurry? Bicycles in the streets, on the sidewalks, EVERYWHERE. Toddlers riding behind parents and in small carts attached to the bikes. Many tall women! Almost a million people in this city. Amsterdam is below sea level, and they have what they call "dancing houses". To us, they were houses that looked tilted. They were built all connected to each other and quite colorful and very old. It looked like there was no danger of them falling over. The sky was overcast and the weather cool and windy. Great buffet breakfasts the 2 mornings at the hotel. The 2nd day, we took a guided 2 ½ hour walking tour of the city, seeing permanent houseboats on the canals where people set up camp for years. The houseboats were connected to the city's sewer system.

Our Viking representatives met us at our hotel, and we were shuttled to the Viking Ship Gefjon. The Viking riverboats are called "longships". Our ship was 442' long and 37 ½' wide with 3 decks plus a sundeck. Our ship was built in 2015 and looked brand new. This would be our home for the next 2 weeks and it was looking GOOD. The ship's staff was warm and welcoming, and we were shown to our stateroom. Others were boarding and we were free to tour the ship and check out our new surroundings. We had the first of many wonderful meals in the dining room that evening. Faintly, we heard the engines start up and we were underway. So smooth and QUIET. This is sailing at its best! Starting out on the Rhine River, then the Main, the Danube, for our journey from Amsterdam to Budapest, stopping at 12 cities along the way, and the countries of the Netherlands, Germany, Austria, and Hungary. Our ship would navigate through 68 locks along the way.

The first day of sailing, the Gefjon stopped at Kinder Dijk, and we took a walking tour of the windmills and went inside one. Beautiful wood on the walls. The "miller" who lived in it was very hospitable and proud to show us his home. It is said there were some families of 14 who lived in these at one time. Wall openings for adults and drawers for babies and children were used for beds. Wall openings were short as people always sat up to sleep, thinking that a horizontal position related too closely to death.

Upon awaking Thursday, we were docked at Cologne, Germany. The massive cathedral we toured was breathtaking, they started building it in the year 1248 and took over 600 yrs. to complete, by this time it was 1880. Amazing architecture and beauty within. Walked across a bridge that spanned the Rhine past the "locks", which were thousands of padlocks attached to a chain link fence on one side of the bridge, very colorful. Wow. How many years did it take to fill in this fence all the way across the bridge? Now, there are locks attached to locks connected to original locks!

Koblenz, Germany: We toured a massive castle on our walking tour red berry iced tea was refreshing!

Miltenberg, Germany Walking tour I enjoyed roast duck for dinner on the ship.

Now cruising on the Main River with the Rhine behind us

Wurzburg, Germany: Toured the Residence (enormous) of French bishops Low of 50/High of 80 degrees today I sipped Black Lemon Iced Tea for the first time

Bamberg, Germany: A fun city, lots of shops. Cruised through the Main-Danube Canal

Nuremberg, Germany

Regensburg, Germany Walking tours in every city/some motorcoach

Passau, Germany

Melk, Austria Scenic cruising through Wachau Valley

Krems, Austria

Vienna, Austria Beautiful city of almost 2 million people. Rode motorcoach from ship into the city. Then free time to go into the churches and to shop. Walked through the city museum and saw the Lipizzaner Stallions in their stalls housed in the palace as we walked through the courtyard of the Palace. Vienna is preparing for the world's largest marathon here tomorrow. While on the motorcoach, we noticed lots of fencing being placed strategically along the sidewalks in preparation for the race. Beautiful city. Flowers everywhere. We were docked here in Vienna 2 days, departing for Budapest at 5 p.m. the second day.

Budapest, Hungary: We toured another huge church. Beautiful stained-glass windows, which were carefully removed before the war bombings and then replaced after the war. Last chance for shopping, so many were making last minute purchases of souvenirs.

As you will note, not much is written for the last cities we visited. We were so busy, or I was too tired to journal each day and just fell into bed. Each city visited was unique and a pure delight.

The meals on the ship were unbelievable. All freshly prepared and we tried many new dishes. Fantastic desserts and exquisite presentation! Our program director, Boris, was a lively outgoing man that kept us all motivated every afternoon to "get ready" for the next day's fun. No one could have done his job better! Each afternoon, Andre played an electronic piano in the lounge, and we had comfortable seating with wall-to-wall windows or viewing the countryside as we quietly cruised the river. At 9 p.m. each evening was continued music or games. A handblown glass expert came on board, classical music by piano and clarinet one night, always something to do, or you could sit quietly in the AquaFit terrace area and play cards.

Note: We felt very safe from covid on the Viking riverboat. Prior to going, each passenger had to show proof of vaccine and have a covid test 72 hours before boarding a plane. Every morning on the ship, each of us had to spit in a personal vial, place into a marked envelope and drop off at the main desk.

We, laughingly, would ask each other, "Did you spit yet?" These were sent out to a lab every day. On the last day, we were provided with a hard copy of that day's test result and could use this before boarding a plane at Budapest to return to the States. Our stateroom and the entire ship were super clean. Everyone wore masks except while eating or drinking and in our own stateroom. While on the tours, masks were worn on the buses and inside buildings or shops. The guides wore masks continuously as did the ship's staff.

The last night on the Gefjon, our luggage had to be outside our door by 4 a.m. Breakfast was available quite early for those departing for earlier flights. We were shuttled to the airport and 2 Viking reps. Stayed with us until we arrived at our gate. Tom and I flew to Munich, Germany, then a 9 ½ hour flight to Washington, D.C., then a connecting flight to Knoxville, Tennessee. HOME!

What a trip! Beautiful scenery and terrific weather the whole time. I didn't realize Germany would be so picturesque. All the fields, crops, vineyards were tidy and pristine. Seeing both sides of the river we were cruising, feeling the quiet solitude of God's creative wonders. Absolutely overwhelming and the precious memories will be held dear for our lifetime.

For those of you who might be wondering about a recommendation...we do not have one (1) complaint about Viking.... not one. We were treated royally from beginning to end.

The only thing that could have made this trip better is that all our Chapter B family could have been right there with us!

RECIPES

Hot Peach Pepper Cheese Ball

- 16 ounces cream cheese- softened
- 1/2 cup hot pepper peach preserves
- 1 jalapeño diced small
- 1 cup Monterey Jack shredded cheese

**COME
AND GET
IT!!!**

Mix all the ingredients above
Shape into a ball

Roll cheese ball in 1 cup Monterey Jack cheese Chill before serving

Sonya

Ladies, please submit some of your favorite Recipes to Merrilee so they can be used here in this section and we can share them with all our Chapter B members

Over the years Chapter B has chosen the Lifestyle program as not only a great fund raiser but provides a good excuse to get together for a ride. You all know how much fun it is to enjoy a new place to eat in our area. With the pandemic we experienced last year it pretty much shut down our Restaurant Rating activities. Most locations offer a buy one and get one free so one card for each couple works best, individuals always get 1/2 off a menu item. The pocket saver costs \$20 and the chapter keeps \$6 of this for their favorite fund raising effort. The more the merrier as we schedule dinner rides using our Lifestyle cards, hope you all participate again this year.

I will have extra cards available at the Dinner outing, you may purchase your card then.

Call Wally and let him know your next suggestion for our next night out using our Lifestyle cards
