Hard to imagine we are this far into the year. We have had some really nice rides this year and there are some nice rides still lined up ahead. Hopefully everyone takes advantage of them before they are all gone and we are left with dreams of next year. As I look over the schedule there are still some chances to add a few more rides in. While September looks booked with a really nice line up there is still one weekend open and October has a few weekends while November is wide open for a late Fall Ride and maybe even a Gerbing Heated gear ride to close the year out. It has been a great year to ride especially after a year like last year. One of the great perks of Chapter life is meeting and getting to know some wonderful people that have the same passion for riding as you do and then getting to get out and share the riding experience with that group of friends. We are always looking for new roads to travel and things to see but it takes everyone coming up with ideas and suggestions and then submitting them in for it to happen. Wally has done a great job this year with the ride schedule so if you have a good suggestion bring it up to him and if you are not comfortable leading it, I'm sure someone will step up and do it. I look forward to seeing everyone Tuesday night.

Ride to Cumberland Gap

Well like a lot of rides we had to keep an eye glued to the weather channel as it looked like rain may wash the day out but as luck would have it the rain chances went down and the ride was still on. Mine and Patty's ride started out in Jacksboro and our plan was to ride to Tazwell and meet up with Chris and everyone else at the Hardee's there. We picked up JoAnn along the way and as we head-

ed up the valley toward Tazwell. It was a nice morning riding next to the mountain ridge and the sky was blue and the temps were low. We made it to Hardee's and after about 15 minutes Chris and the rest of the crew showed up, man that was some good timing. We all pulled out and made the ride up to the pinnacle and even though Patty and I have been here multiple times it never gets old or disappoints and I al-

ways look forward to going back. After a little sightseeing we headed back down and made our way into Cumberland gap, this is pure Americana and the place that time forgot and if we are lucky, it will stay just that way. We had reservations at Angelo's in the Gap for lunch and we also had Larry and Astrid meeting us there for lunch. Service was a little slow and we had to wait a bit but it was worth it as the food was really good. We were also fortunate to have a new rider show up at Angelo's and join in with us, he also did the rest of the ride with us and hopefully he will start joining in on our Chapter meetings and other events. After lunch Larry and Astrid had to get back toward home as everyone else mounted up and headed toward Middlesboro where we would take 74 to 90 over to 25 and back into Lafollette. This is a great windy road and it goes through several small communities on it's way back over the mountain and just as we made it back over to 25 we found the rain. It did not rain that hard or long as I think we had just missed the real down-pour but other than messing up the wash job on the bike it felt really good. The rain lasted about 3 or 4 miles and we were back in the dry again so we made our way toward Dairy Queen for some ice cream but Covid ruined that for us as the lobby was not open to customers so Patty and I headed for home. We started the day with 8 bikes and 14 people and finished it with 9 bikes and 15 people. I want to thank Chris for putting together another killer ride and some great friends to share it with.

Submitted by Stanley Rinehart

Happy Trails

So some of you may recall some months ago I offered some suggested items to carry in your saddlebag / trunk for roadside emergencies. I recently read an article that offered a slightly different array of small but necessary items that you may want to consider adding to your emergency collection. Some of these may seem like repeats, but what the heck, many of us have short attention spans and often need reminders.

1. A good compact first aid kit. These are available at a variety of stores and should include adhesive bandages, first aid and burn cream, misc. medications, wound cleaner, and a first aid manual (for most of us who forgot stuff from the class).
2. A Zipstitch Laceration Kit. Lacerations happen. Now don't get me wrong, I'm not trying to make you into amateur surgeons, but how many times have we been on recent rides when at a gas or food stop out in nowhere land have you noticed that your cell phone shows "NO SERVICE"? How would you repair a good sized laceration? Get one of these kits and tuck it into your first aid kit as cheap insurance.
3. Gorilla Tape. Forget about duct tape. This stuff is the real deal. It's more adhesive, more weather resistant, and easier to work with. It's perfect for patching torn gear, seats, or saddlebags. And now, it's available in smaller rolls that don't take up much room in your bag.
4. J-B Weld Steelstik. Asphalt loves nothing more than to grind through an engine case. This epoxy putty is perfect for quick fixes, setting in five minutes and curing completely in around one hour. It can also tolerate heat of up to 300 degrees Fahrenheit. Have a hole larger than the epoxy alone can contend with? Get creative. Pennies make great filler.
5. Zip ties. Our generation's duct tape, zip ties are the ultimate multitool. Keep a few dozen hidden away in your emergency bag. They can stitch together body panels, secure lights, hold boxes closed, and secure almost anything on your bike.
6. Silicone Sealing Tape. Used by the U.S. Military this stuff can handle up to 500 degrees Fahrenheit and 950 psi, which means it's perfect for repairing punctured radiator hoses. It's also a great insulator, and when wrapped around damaged wiring, it can keep aggravated shorts at bay.
7. Mechanic's wire. If it can't be glued, taped, or zip tied, it can probably be wired together. And in a pinch, wire can replace missing panel bolts, keeping things in place until you can find a hardware store. No need to bring a whole roll, peel off a small coil and pack it into your emergency bag.
8. And don't forget a good tire repair kit for tubeless tires and some sort of pump to restore air pressure after the repair.

I hope these suggestions help to save your day sometime in the future. Until later, ride safer!

Jerry

Helen Ride Sept 24th, 25, and 26th

Our first overnight ride for the year is scheduled for September 24, 25, and 26 to Helen, GA. We will leave from the Weigel's in Lenoir City at the corner of Hwy 321 and US 70 at 0830 Sept 24, please have tank filled, bladder's emptied and a smile on your face's. We are staying at the Cornelia, GA Hampton Inn, I have a contract for 20 rooms and 15 of them are booked. We have a rate of \$125 per night and have till September 10 to keep this rate, and have a cancellation date of September 22nd. This trip is scheduled during Oktoberfest around the area, I don't think the color will be showing but am pretty sure the temperature's will be milder.

The route will head down 411S to Hwy 64/74E heading toward the Ocoee River (beautiful) to Cooper Hill, and then head down GA 5 to Blue Ridge, GA. Here is "da idea", we stop at Blue Ridge Dam and have a "Pick a Nick". I would like to do a old time "Pick a Nick", we will have a menu, where everyone brings "a" item, such as a loaf of bread, or pack of cheese, or mayo, etc. and individually wrapped chips and maybe someone will bring homemade cookies. So one person is not loaded up will lots of stuff to bring. After our pick a nick we will head down hwy 60, gentle ups and downs and turns to hwy 180 at Suche's GA and head up to "Brasstown Bald" State Park, you can look up on their website. We will park at the bottom of the Bald, it was \$3 per person admission, and take a bus to the top, or you can walk a .6 mile trail with benches to the top, (not me) good idea to bring camera's. The only problem is, when we went there yesterday, the bus to the top was stopped due to the Covid-19, I will check with office to see if it is open at ride time. From the Bald it is 12 miles to Helen and 20 minutes to Cornelia. We will check in to the Hotel, and rest, and I have a suggestion to eat at the Mexican restaurant that is about 100 yards walk from the Hotel. We have eaten here before, great food and Margarita's are awesome. Cards afterwards if everyone is up for it.

On day two, we will get a quick breakfast, should be a full one, and head to Helen early, where the parking is plentiful, there is a \$2 dollar honor system for downtown parking. There are a few places that are a must and one is the Hensel and Gretel's candy shop, all home made and you gain five pounds just walking in to the store. We can wander around and maybe gather for lunch, one suggestion is the Troll restaurant, which has enough room to seat all of us and clean restrooms. There also is one thing to think about, what time is the Vols/Gator game, afternoon or evening, some may want to head to the Hotel to watch the game, other may want to ride around the area. There are some great waterfalls close and some great little towns, such are Dawsonville or Dahlonega to ride to. Depending on what time the game is, presents us with options for dinner, if the game is evening we could order pizza's and watch the game in the lobby. If a restaurant is warranted then they have a Longhorn really close to the Hotel or other places as well. You can go to "TripAdvisor" to Cornelia restaurants to check out what they have.

Day three, John T and I need to get some more Vidalia Onion Steak Sauce, and we can eat at the Dillard House, (check out their website) the draw is either an awesome breakfast or early brunch. Then we will head to Cherokee and top off and head over the Smokies to either Townsend or Gatlinburg which is either closest to your home. This will be a slow and fun paced ride, which I am calling the "stretchy pants ride", no counting points, we will eat good and have a great time.

Wally

Technical Coordinator: Chris Harden

On Honda Goldwings built since 1984 they have had a form of anti dive system on them what this does is help prevent the front of the motorcycle from nose diving when you apply the front brake. The early ones were called trax system which the caliper attached to a plate which moved a valve and slows the flow on the shock which slowed the movement keeping the nose of the bike up in 1988 with the development of gl1500 they changed it to a anti dive system taking one of the caliper mounting bolts and hooking directly to the valve this system carried on to the 1800s til 2017 they found this to be way more efficient and increased the ability of less drop on front forks when applying front brake. This along with the linked brake system used on the rear gibes the Goldwing superior stopping power over other motorcycles.

Ride to Natural Tunnel VA

Our day started out foggy and cool for the ride to the Natural Tunnel VA. but ended up turning into some of the best weather we have had to ride in so far this year. We meet at our Shoney's off exit 122 so we could start the day out with a good breakfast as this would be a little longer ride to get to our destination. We had a great turn out for the ride as 21

people showed up including two in a car. The plan for the ride was to do mostly two-lane backroads and avoid as much traffic as possible. The ride would be right at 100 miles to get there and even though that's not that many miles on a Goldwing it is when you do it on two lane country roads. The ride took us through a couple of small towns in Tazewell and Sneedville and was also areas we had planned on stopping and taking breaks. Doing rides like this are a lot of fun, but even better when you have a big group of friends to share it. We had some in the group

that Patty and I had not gotten to ride with in a while and it was great to get to ride with them again. With the issues going on right now because of Covid and lack of workers and places not having their lobby's open I had been worried it would be hard to find somewhere that had restrooms to stop and take breaks, but luck was on our side and everything was open. All the roads that we took were in really good shape and we passed little to no traffic on the back roads. The ride up took us a little over 3 hours so when we arrived I think lunch was on everyone's mind. This was a picnic ride which I personally enjoy as it seems a lot easier and fun without having

to wait on getting seated and served and as luck would have it all the picnic tables were empty when we arrived. After lunch we made the chairlift ride down to the gorge to check out the tunnel, some in the group had never been here before. I have been here several times but had never saw the train come through but as we were getting ready to get back on the chairlift to go back up, we heard the train whistle blow so Patty and I made a beeline back the tunnel and we got to see the train come through. As we got back up to the top, we took a photo opt of the group before we would be heading out. The day had been going on with out a hitch until it was time to leave. Jerry told me as we were getting ready to leave that he was going back another way as the rest of us were going to be going back on 58, I thought, but as everyone was mounted and Jerry pulled out most of the group fell in behind him and pulled out, not knowing I assumed some of the others were going to follow Jerry back the other way so

as they all pulled out one way me, Chris and Robert go another. We didn't make it down the road to far till Chris was picking up CB traffic that sounded like part of the group coming our way so we pulled over and waited. After getting the group back together we made the ride back down to 58 and back to Harrogate where most everyone's lunch had wore off so we decided to turn it into a dinner ride as well so after a stop and Gondoliers and our belly's full it was time to head back home. It had been a great day with a lot of friends and beautiful weather.

HOST HOTEL

The Engraver !!!

#1

- Engraved Name Tags, Bike Plates, License Frames, Maps, Name in Lights and much more – Because we carry such a wide array of logos and pins, we can custom engrave name tags and other engraved items for GWRRA, all Armed Forces and other groups such as Masons, Shriners, Patriot Guard Riders, Blue Knights, Red Knights, Buffalo Soldiers MC
- License Plate Frames for Motorcycles, Trailers and Automobiles- Custom engraving to support your group, sports team or just to personalize your plate.
- *Chrome Knob Keys and Spare Keys We only use GL1800 or GL1500 chrome radio knobs to make our knob keys. We also make a flat spare key that easily hides away in your wallet or on the bike. We are the "Home of the Original" chrome knob key for the gas tank and pouch. Also available in smoke chrome.
- Medallions- Couple and Individual of the Year medallions. These medallions also make great awards for student, athlete and employee awards! Couple of the Year name tags are buy one, get one free. We now carry the GWRRA COY/IOY pins and hangar bars.
- Military, and Fraternal Organization Pins as well as GL 1800/GL1500 Bike and Trike Pins
- **Pin-Locs** – Locks pins or tags with military posts onto vests etc. We now also carry the "no-poke you" type in silver and gold ***Never lose a pin
- Plaques, Trophies and Signs - Custom trophies, plaques and signs (Up to 8"x10"). These plaques can be used to honor your Couple or Individual of the Year as well as honor the service of outgoing directors of your chapter, district or region.

CHECK OUT AND LIKE OUR NEW FACEBOOK PAGE. @thEngraver I will be posting specials and examples of our work on this page.

In addition to adding our vast array of pins on our website, you can also now see us on eBay where our pins are and will be added to site over the next few weeks.

PLEASE NOTE: If you do not see what you need listed on our website, please email us or call. If you are interested in carrying any of our items at the Chapter, District or Region goodie stores or rallies, please call us for special pricing.

Joanne 561 239 2307 Website: www.thEngraver.com Email: ThEngraver@aol.com

We are Lifetime GWRRA members and have been honored by GWRRA for more than 25 years of support and loyalty to GWRRA Wing Ding event participation! See our ad in GWRRA Wing World magazine.

East Tennessee Sectional Plaque up for grabs

Items For Sale

Items for sale, contact Brian Richards, 865-249-6173 or barljr@att.net

Bilt Spirit H2O jacket, lady's size large, brand new, MSRP \$299.99, asking \$50.

HeliBars Tour Performance handlebar risers for 2018+ Honda GL1800. Very-good condition, only used a short time (replaced with the Helibars Handlebar system), MSRP \$129.00, asking \$75/OBO

I have a set of centramatic balancers for a 2010 two wheeler asking \$225. Brand new. See Scott Seal

RECIPES

**COME
AND GET
IT!!!**

Ingredients

- 4 medium sweet potatoes
- ¼ cup butter, softened
- ¼ cup cream cheese, softened
- ½ cup milk
- ¼ cup maple syrup
- 2 eggs
- 1 teaspoon vanilla extract
- ½ teaspoon salt

Topping:

- ¼ cup butter
- ½ cup flour
- ½ cup brown sugar
- 1 cup pecan halves

Ladies, please submit some of your favorite Recipes to Merrilee so they can be used here in this section and we can share them with all our Chapter B members

Instructions

1. Halve the sweet potatoes and place them in a large pot. Cover the potatoes with water and boil until soft. Remove them from the water and allow them to cool before peeling. The peels come off very easily when removed after boiling.
2. Preheat oven to 350 degrees and butter a 2-quart baking dish.
3. In a large bowl, combine the cooked sweet potatoes, butter, cream cheese, milk, maple syrup, eggs, vanilla and salt. Whisk until combined and very creamy. Spoon mixture into the prepared baking dish.
4. To make topping, combine all topping ingredients in a bowl and mix by hand until well combined. Spoon topping evenly over the sweet potato mixture. Bake casserole for 25 minutes, or until golden brown. Serve warm.

Over the years Chapter B has chosen the Lifestyle program as not only a great fund raiser but provides a good excuse to get together for a ride. You all know how much fun it is to enjoy a new place to eat in our area. With the pandemic we experienced last year it pretty much shut down our Restaurant Rating activities. Most locations offer a buy one and get one free so one card for each couple works best, individuals always get 1/2 off a menu item. The pocket saver costs \$20 and the chapter keeps \$6 of this for their favorite fund raising effort. The more the merrier as we schedule dinner rides using our Lifestyle cards, hope you all participate again this year.

I will have extra cards available at the Dinner outing, you may purchase your card then.

Call Wally and let him know your next suggestion for our next night out using our Lifestyle cards
